## **Toellner Systems, Inc. Reaches Distribution Agreement with U-Tech – INDIA**

Wisconsin Rapids, WI and Bangalore, India – February 10, 2009 – Toellner Systems, Inc. and U-Tech announced an agreement where U-Tech will serve as a distribution channel in India for Toellner Systems, Inc. Automated Loading Solutions. This arrangement will provide U-Tech exclusive rights for providing India with the world's fastest and most affordable Automated Part Loaders and Unloaders.

“We have been very impressed with the professionalism and dedication that U-Tech has shown to providing India with our automated parts loading/unloading systems”, stated Dennis Toellner, President of Toellner Systems, Inc. “Our organization specializes in providing the fastest and most cost effective automation solutions on the market. We feel that U-Tech is an industry leader in India and we are very confident in their ability to showcase the Toellner brand”

U-Tech CEO, H.A. Udaya, announced, “We are very excited to add Toellner Automated Loading Systems to our product portfolio. During this difficult economic time, we are thrilled to be able to offer our customers a means to decrease overhead costs while increasing productivity. We are confident that Toellner Systems will be the leading brand in automation and lean manufacturing in India.”

Toellner Systems has been in operation since 1986. It is an industry leader with its applications in helping companies dramatically increase throughput production while decreasing overhead, manufacturing automatic parts loaders, catchers and conveyors for CNC lathes, machining centers, grinders, shaft cut-off, multi-spindle chuckers and thread rolling. Toellner specializes in serving automated solutions to many industries, among them the metal, powered metal, titanium, cast iron, stainless steel, brass, copper ceramic, composite, wood, rubber, graphite and plastic industries.

**Toellner Systems...Loading Profitability. Unloading Overhead™**
